1. On 26 August met with [REDACTED] and discussed notes from weekly activity reports No. 33. [REDACTED] commented on item 6 which related to incentive awards of \$61,975 awarded to 546 Agency employees. Budget limitations may affect such awards in next year's Fiscal Year budget. Mr. Baird commented that money will have to be found to make the awards to those personnel who have begun the course this year. At some later date, should it be found that awards cannot be made to new students, proper notification should be made prior to their entry into language training.

25X1A9a 4. [REDACTED] is visiting each unit of the Agency and discussing with appropriate representatives the new overtime policy. 25X1A9a Mr. [REDACTED] stated that very definitely the professional and executive personnel will not be paid overtime. General Cabell has previously stated desires that those personnel in CIA who are subjected to continual long hours of overtime should have their pay adjusted through flat overtime payments, bonuses or differential. [REDACTED] is requesting each unit to study the problem and apply for exceptions to the overtime policy. 25X1A9a

25X1A 5. Mr. [REDACTED] stated that Mr. Gates Lloyd desired to talk with me in connection with CAT weekly flights from [REDACTED] 25X1A [REDACTED] Prior to holding any discussions with Mr. Lloyd, the matter was referred to Mr. Baird and stated that the cessation of such flights would have a very definite detrimental effect on the morale of the people 25X1A [REDACTED] who are permitted on a selected and rotating basis to travel 25X1A from [REDACTED] where they are afforded the opportunity of making purchases in the commissary and the PX, returning via this aircraft to 25X1A [REDACTED] the same day.

25X1A9a 6. [REDACTED] also invited attention to the Support Bulletin and stated that the contributions were very meager and he hoped that OTR would assist him in providing items of general interest which could be published for domestic and overseas distribution. Mr. Baird's feelings in this matter when it was referred to him was that the training bulletin has the first priority in OTR and that the Support Bulletin usually draws items of interest from the training bulletin, thereby giving wider distribution through this media. It would appear that the subject of the new overtime policy, carefully stated, would be an item of considerable interest to all Agency personnel. This subject will be discussed with [REDACTED] at an early date. 25X1A9a
